Dry Foam Sofa & Upholstery Cleaning Machine

Professional machine for cloth and upholstery cleaning.
Suitable for hotel, restaurant, club, building, entertainments, theater,
cloth furniture factory, contacted cleaner, etc.

Two essential needs for sofa and banqueting chairs cleaning:

- Clean and tidiness; make sure the cleaned sofa and chair can be used soon.
- Service life required, no damages such as holes or broken allowed.

Prominent Economic Benefits:

Take restaurant as example: restaurant for business dinner, has 1,000 chairs, every week need clean 200 chairs, that is 200 chairs x 52 weeks= 10,000 chairs one year. If ask for a contacted cleaner service, cost is usd3/one chair, that is 10,000 chairs x usd3 =usd30,000.

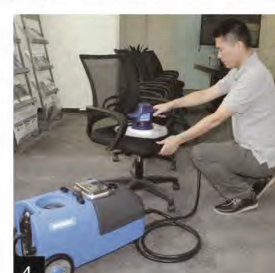

Features:

- Figure 1: 12VDC cleaning brush motor, safe for use.
- Figure 2: foam brushing, fast drying; avoid wet sofa effects normal business operation.
- Figure 3: recovery tank can be removed for water dumping.
- Figure 4: mechanical cleaning with high efficiency and even friction, avoid any hole or broken.
